

BRYAN BALLI

Creative Technologist

Cover Letter

To Whom It May Concern,

As a Creative Technologist I've learned to mentor cross-team relationships, automate executions and push product frameworks to deliver best-in-class visual experiences. As a Web3 native, I experiment with blockchain technology to deliver unique utility and sustainable distribution for independent creators.

I enjoy ideation, big-ideas, leading stand-up, client calls, articulating limitations, and onboarding creatives to technical build environments like Blockchain. Capable of executing design and code while institutionalizing processes across account, creative, and engineering teams.

- Designs, codes, and prototypes in Figma & HTML5/CSS/JS
- History of integrating emerging web tech into traditional creative
- Leads client onboarding, strategy, and execution
- Sets delivery expectations, oversees client-journey

DETAILS

2021.10 - CURRENT - SCARYGARYS.COM

Scary Gary PFP

NFT Strategist, Technologist, Art Producer
Directly strategized with NFT artist Mister Goldie (Rolling Stone featured, Coinbase sponsored) to establish his debut PFP project.

Established hand-off processes with developer team at imnotArt Chicago.

Developed Figma JS plugin generating comps for artist to visualize, edit, package, and ship pixel-perfect traits.

Onboarded artist to Figma and led in the re-production of his hand-drawn artwork into vectorized assets.

2021.04 - CURRENT - EDITTRAX.COM

EditTrax Music NFTs

Founder, Creative Director, Prod Developer
Concepted, designed and coded interactive music NFT viable-product that removes 3rd party service providers; increasing profits for creators by 15%+ minimum.

Coded in HTML5 and hosted decentralized static website on IPFS via Fleek resolving to .nft extension.

Created all marketing collateral, advertising banners, promotional videos, website copy.

Actively onboarding collectors and collaborators to the Tezos Blockchain.

2022.01 - CURRENT - ORBIX360.COM

Mintverse NFT Marketplace

NFT Consultant, UI Designer, Front End Dev

Actively strategizing launch, consulting over features, brand strategy UI/UX. Coded HTML5 templates across product, mint, and home pages.

THANK YOU - bryanballi@gmail.com
